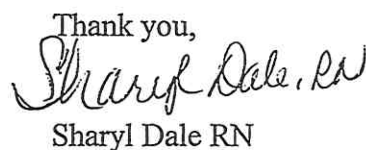
Dear Parent/Guardian:

The attached papers need to be filled out and returned as soon as possible. Some of the questions probably seem a little personal, but these are things that the state requires answers on a yearly basis. When these questions are asked, overall numbers, not names are being looked for. All information received will be kept confidential. It is very important that you complete ***ALL*** questions to the best of your knowledge.

During the school year we keep on hand the over the counter medications listed below for treating everyday injuries/ailments of the students. By signing this form you are giving your permission for the staff at Hume School to use any/all of these at our discretion. If there is any that you do not wish for your child to have, please cross out those medications on this list.

Prescription medications can only be given if the school has a signed permission slip from the physician, signed consent form from the parent/guardian, and a labeled bottle containing the medication. Medications in zip lock bags or other containers will not be accepted. No early a.m. meds will be given. Please give these at home before the students leaves your residence. Signing of this form gives the staff permission to give prescription meds that your physician has prescribed.

Thank you,



Sharyl Dale RN
